SURROUNDEL BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nervo centers which supply the brain with nerveforce: that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these or-

ment of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The little white lines a region of the nerves which concept the nerve which concept the nerve to the nerve centers to every part of the body, just as the electric current is conveyed along the telegraph wires to every station, large or station, large or small. Ordinary physicians fail o regard this fact: regard this last instead of two ing the nerve coaters for the case of the diaders arising the from they treat the part affected. Franklin Miles. N. specialist and student of her one diseases, and author of many nated treatises on the letter subject, long since realized the truth of the first statement, and his Restorative Nervine is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimodials in resease in our first in resease, ion of the commany manufactures.

Resolved, That we condemn the Republican party of the Eastern states and the a ministration of President Harrison, insofar as they have failed to accomplish the comrlete remonetization of silver, and to enact laws providing for the free and unrestricted coinage of that metal.

Resolved, That the restoration of silver to the place it rempied previous to the passage of the Mint Act of 1873, is essential to the prosperity of the country and paramount to all other political considerations. The legislation which robbed silver of its money functions and denied to the owner of sliver bullion the right to have the same coined into money upon the some terms and conditions which apply to the coinage of gold, reduced the money of ultimate redemption or payment, about onehalf, and enabled the owners of money and obligations physible in money to monopolize the coin of the commercial world.
